

What a Difference a Simonton DaylightMax™ Window Makes.

We stacked a Simonton DaylightMax™ vinyl window with a competitor's window of the same size to show you what a dramatic difference the DaylightMax frame depth can make in letting you see more view. Available in nine exterior colors and five trim styles, DaylightMax also lets you see more style options now that it's time to replace your tired vinyl or aluminum windows.

DaylightMax™ Offers Up To 40% More View!

Compared to competing vinyl window brands. Actual percentage varies based on window size. For more details, go to daylightmax.com.
